ABOUT

CONCORD WILDLIFE ALLIANCE

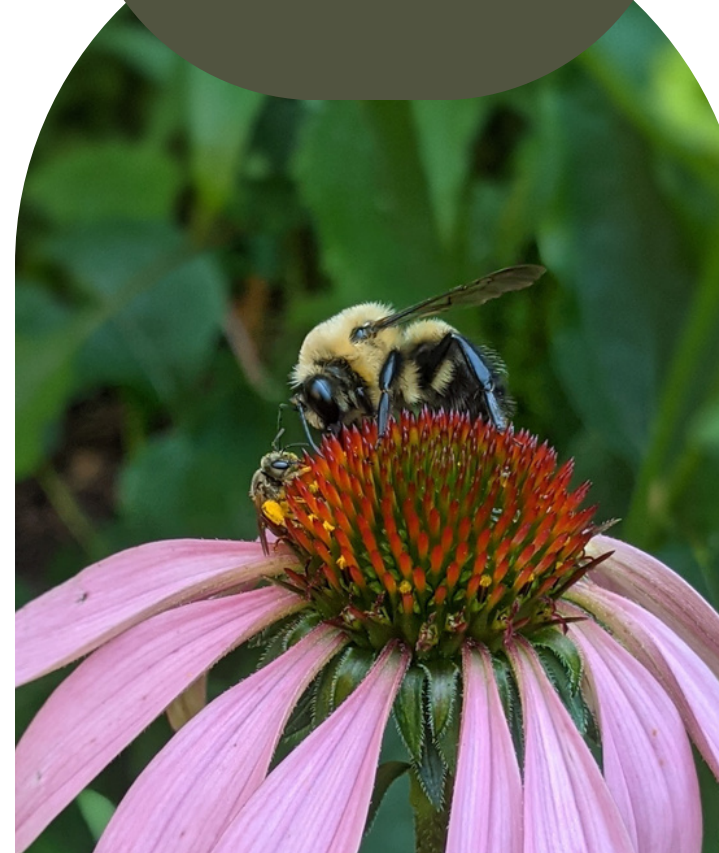

We exist to protect, conserve, and restore wildlife and wildlife habitat in the greater Concord area. Through our larger network, we are also able to join in state and national initiatives.

A group of passionate people founded the organization in 2014 as a North Carolina Wildlife Federation chapter.

We host educational meetings and events for both kids and adults, create and maintain pollinator gardens, organize clean-ups, facilitate the Hunters Feed Cabarrus program, and work with other community organizations to help wildlife and wildlife habitat.

HUNTERS FEED CABARRUS COUNTY

One tangible way CWA impacts our local community is through the Hunters Feed Cabarrus program. We work with a local processing center to donate "extra" deer from hunters to a local food bank (Cooperative Christian Ministries). This program helps provide protein for people in need and helps move towards a waste-free future. Since 2018, we've donated thousands of pounds of venison. We hold an annual fundraiser to benefit this program.
